Position Reports are calculated on a marketing year basis (March - February). Totals are reported on Kernel Weight Equivalent - where inshell product is converted by % to kernel weight. All reports are in Metric Tonnes (MT). Inshell product is almond that has had the hull removed, but not the shell. Kernel product has had both hull and shell removed.

This project has been funded by Hort Innovation using the almond research and development levy and funds from the Australian Government. For more information on the fund and strategic levy investment visit horticulture.com.au
